Applicant's arguments filed 1-15-02 have been fully considered but they are not persuasive.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants' employment of the language "consisting of" in setting forth the components of their claims is confusing as to intent because the components defined are open to the inclusion of other materials not recited (i.e. other known auxiliary agents and additives) which is contradictory to the closed language "consisting of".

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 3-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Volkert.

Rejection is maintained for the reasons set forth in the previous Office action. Applicants' arguments have been considered but are not persuasive. Examiner disagrees with applicants' interpretation of what is excluded by the claims as they presently stand and maintains that the claims do not exclude the additional presence of water (i.e. other known auxiliary agents and additives). Additionally, it is maintained that the reference taken in its totality teaches employment of cyclopentane alone,

without water, and the fact that the examples recite the additional employment of water does not negate this teaching. In regards to applicants' discussion of the comparative showings of the supporting disclosure, it is held that the Board Decision dated 7-24-01 affirms examiner's position that the showings of results are insufficient in refuting examiner's position of obviousness and no further comment on this issue is seen to be necessary.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
